BIKEWEAR CLOTHING

Cycling jerseys are tailored to be tight; made of elastic, breathable materials which take moisture away from your body and considerably enhance your comfort.

It is most suitable to combine them with high-quality functional underwear during warm days and wear them under a jacket as a basic layer of your clothes during cold days. On the back panel of the jersey are pockets for necessary items like keys, energy bars and spare tube. Cycling trousers with a very important hygienic padding enable unlimited motion on the bicycle. Elastic pants keep the padding in the right position during the entire ride and enable the essential comfort for road and mountain cycling.

Thermo warmers are an invaluable accessory during spring and autumn days. The day temperature fluctuates and the small and lightweight warmers enable to adapt to these changes. Their small size allows rider to carry them in the back jersey pocket so they are always ready for use.

Recently, the eye protection became a part of almost every activity performed outside, not excluding cycling, of course. The ozone layer in our latitudes compared with the situation 30 years ago weakened by almost 10%. This can be one of the reasons, why people are starting to realize the importance of eye protection.

When choosing the sunglasses, several factors have to be taken into account. The most important factor of course, is the eye protection. According to the environment, where we are going to wear the sunglasses, we can choose the correct filter category. It is also important, that the sunglasses fit, do not squeeze or restrict the movement. Last but not least, many people require also the function of a fashion accessory.

Kellys sunglasses are designed to provide a 100% protection in all-weather conditions in any environment. Sports sunglasses have two lenses, which can be exchanged quickly and comfortably anywhere. Adjustable rubber nose pads allow the proper fit and together with rubber temple ends provide stability of the face even when sweating. Leisure sunglasses are suitable for sports or hiking. They are equipped with standard durable polycarbonate lenses as well as with polarized lenses, rubber nose pads and also rubber temple ends.

EYEWEAR SUNGLASSES

FRAME:

All types of sun glasses are made of Grilamid TR90, which is characterized by an extremely high flexural strength, flexibility and lightweight. Grilamid TR90 also excellently resists weather conditions and the effects of UV radiation. This material therefore ensures a long frame durability even during high performance.

POLYCARBONATE LENSES:

These lenses are characterized by lightweight and depending on the finish also by high durability and scratch-resistance.

POLARIZED LENSES:

The sun light itself is not polarized – it becomes polarized after the impact on a shiny surface (snow, water surface or road), when the reflected waves oscillate in two levels – horizontal and vertical. Sunglasses with polarized filter allow only the positive vertically reflected rays to reach your eye. Looking through such sunglasses is comfortable, clear and without glare. The horizontal group of sun rays is blocked out by the polarized filter. These lenses allow a colorful vision, better visual clarity and notable relief for the eyes.

ANTI-SCRATCH COATING:

All lenses are equipped with special surface treatment which increases scratch resistance

ANTI-FOG COATING:

This lens treatment prevents fogging for certain time to avoid reduced visibility.

ANTI-WATER COATING:

Surface treatment improves off-take of water droplets. It helps to keep clear vision without any distortion.

PHOTOCHROMATIC LENSES:

Photochromatic lenses are made of Polycarbonate. By exposure of ultraviolet radiation lenses change darkness according the UV radiation intensity. If the UV radiation is removed (indoors or inside the car), the lenses will return to their clear state. This lenses are recommended to use outdoor only.

BIKEWEAR GLOVES

Gloves have become not only part of the outfit for modern cyclists, but a part of the basic equipment of just about every devotee of cycling.

Their benefits are undeniable, whether for road or mountain cycling. Gloves eliminate unpleasant shocks transmitted through handlebar grips and also reduce uncomfortable tingling in fingers. Modern research shows, that the correct position of shock absorbing padding in the glove can reduce these problems up to 80%. Kellys glove designers focused on all important details to enhance the rider's comfort. Having thumb area from terry cloth, palm from Airy mesh material or including Velcro fastening and Pull out system for easier glove removal are only a few details to mention.

IMPULS SHORT

GLOVES

All round model made of 4-way, streamlined pull on with 3D logo on Compression cuff, ergonomically formed palm made of synthetical leather Amara with gel padding and silicon printing for better grip, thumb area with a towel

COLORS: sky blue, lime green, light grey

AVAILABLE SIZES: XS, S, M, L, XL

IMPULS LONG

GLOVES

All round classic model made of 4-way, streamlined pull on with 3D logo on Compression cuff, ergonomically formed palm made of synthetical leather Amara with gel padding and silicon printing for better grip, fingertips printing for extra control, thumb area with a towel

COLORS: lime green, sky blue, light grey

AVAILABLE SIZES: XS, S, M, L, XL

INSTINCT SHORT

GLOVES

Lightweight model made of Lycra Mesh, streamlined pull on with 3D logo on compression cuff, ergonomically formed palm made of synthetical leather Amara, with gel padding and silicon printing for better grip, thumb area with a towel

In the modern society an increasing number of people seek out various sport activities but safety can often be forgotten. Health is the most valuable thing and therefore we need to protect it.

This philosophy became Kellys company motto which is why we increased our offer of safety helmets. From durable colourful designs for your little ones to the most sophisticated models for professional riders there is plenty to choose from. All Kellys helmets undergo rigorous safety tests and all carry the CE Quality Standard Label. Majority of our models are made by In-mold technology which enables for reduced weight while retaining all qualitative parameters. STS, Dial Ring and Double Pull systems allow for a quick and comfortable head size adjustment while anti-bug net and antibacterial padding add to the wearing comfort for all riders.

ACCESSORIES HELMETS

ROCKET

HELMET

made by In-mold technology

IRS - In-molded Reinforced Skeleton is an advanced skeleton that is fused with the helmet for extra strength in the event of impact

WWV22 - Wide Wind Ventilation - helmet features 22 air vents as a combination of active vents and internal exhaust channels that force cool air over and around your head and warm air out.

STS - Simply Twist System provides quick and comfortable head size adjustment inner antibacterial padding for comfortable wearing, anti-insect internal netting.

ACCESSORIES RUCKSACKS & BAGS

Where to put all those little things like wallet, keys, mobile phone, tools and spare tube which are needed during a short bike ride?

And how about everything for the kids and family when you go on a trip for a few days? This is the question that Kellys designers asked themselves, creating a collection of rucksacks and bags of various types, sizes, volumes and intended use.

STRATOS

RUCKSACK

made of polyester material, provides several inner sections with a hydro system compartment - suitable for the water bladder capacity 3.0 l. Reinforced and ergonomically shaped back system with an airy mesh and alloy construction provides the air comfort and keeps the correct positioning. 3M reflective piping for safety. Integrated „rain cover“ protects against the moisture and dirty.

COLORS: black-grey, red-grey
Expandable volume: 25,0 l + 5,0 l

SPRINT

RUCKSACK

made of waterproof polyester material, provides two inner sections with a Hydro system - suitable for water bladder 2.0l, arm belt with integrated Mobile Phone case, Air Comfort System - reinforced and ergonomically shaped back part with airy mesh protecting from perspiration, 3M reflective piping for safety.

COLORS: grey-black, blue-black
Volume: 6,0 l

RAFT

RUCKSACK

made of waterproof polyester material, front panel made of a special Neoprene material. Lightweight rucksack for cross-country and marathons provides two inner sections with a Hydro System - suitable for a water bladder 2.0 l, arm belt with integrated Mobile Phone case, ergonomically shaped back part with airy mesh protecting from perspiration, 3M reflective straps for safety.

COLORS: black-silver
Volume: 7,0 l

STREET

RUCKSACK

made of waterproof polyester material, big and smaller part with watterproof zippers are both divided in two inner sections with a Hydro System - suitable for a water bladder 2.0 l. Rucksack provides straps for helmet fixing, arm belt with integrated Mobile Phone case, Air Comfort System - reinforced and ergonomically shaped back part with airy mesh protecting from perspiration, 3M reflective piping for safety.

COLORS: red, silver
Volume: 12,0 l

KB-210

RUCKSACK

Waterproof Design - lightweight rucksack for bike - marathon, made of waterproof nylon material, Air Comfort System - with airy mesh protecting from perspiration, anatomically shaped back of the rucksack with adjustable waist belt and chest belt with integrated Mobile Phone case offer flexibility, H2O System - a special compartment for a water bladder. Rucksack provides a flexible cord for helmet, 3M reflective safety stripe, grip for safety light.

COLORS: black, silver
Volume: 15,0 l

KB-211

RUCKSACK

Waterproof Design - lightweight rucksack for bike-marathons, made of waterproof nylon material, Air Comfort System - with airy mesh protecting from perspiration, anatomically - shaped back of the rucksack, with adjustable chest belt with integrated Mobile Phone case and adjustable waist belt offer flexibility, H2O System - a special compartment for a water bladder. Rucksack provides plastic net straps, compartment for helmet, 3M reflective safety stripe.

COLORS: silver, black
Volume: 15,0 l

KWB-09

WATER BLADDER

capacity 2.0l

made of durable material Peva with antimicrobial film keeps bladder clean and fresh by continuously inhibiting the growth of bacteria can cause stains and odors, Slide Lock for easy and comfort cleaning, cap on the front panel with thread for easy and fast filling the bladder with the liquid, including 100cm PVC tube with valve water lock system

KWB-03

WATER BLADDER

capacity 2.0 l

made of durable material with threaded cap on the front panel including 100cm PVC tube with valve water lock system

A bike has "saddles," not "seats." There is a reason for this. A "seat" is something you sit on, and is designed to bear essentially your entire weight. A saddle is intended to carry some, but not all of your weight. The rest of your weight is mainly carried by your legs, and some by your hands and arms.

Every cyclist wants a comfortable saddle. But what exactly is a comfortable saddle? Feeling comfortable is a crucial part of enjoying your ride, and saddles are one of those contact points about which everyone has an opinion. If you get it right, you can ride for hours - but getting it wrong means soreness and discomfort. Typically, the more minimalist seats are geared towards racers who want to save weight, while larger, more comfortable saddles and gel covers are for those who ride less frequently. The width of a saddle is quite crucial for the rider's comfort. If the saddle is too narrow, the sit bones will hang over the sides, and the soft tissues will bear the load. If the saddle is too wide, it is likely to cause chafing of the inner thigh, especially in hot weather. Our sport bike saddles are designed with comfort over weight in mind, this means they may have more padding than a performance saddles and may weigh a few grams more, but should provide a higher level of comfort for the leisure rider

Womens models have a wider design to suit their naturally wider pelvis. Saddle widths vary across the ranges. Narrower saddles are the popular choice for longer distance riders as they do not cause the hips to be placed in an unnatural position. Wider saddles will often feel comfortable initially due to their greater surface area but then progressively decrease in comfort as the miles increase, the correct choice of saddle is a case of getting the balance between initial comfort and overall comfort. It is essential to adjust the saddle properly and try it. Because only properly adjusted saddle will provide you with service you look for. Cycling clothing has a big influence on your comfort too. Why? Because clothing such as jeans and many types of shorts have seams in the crotch area. Sitting on top of these seams puts pressure on the sensitive tissues in the groin area causing pain and numbness. Instead, purchase cycling shorts, which include padding (called the "chamois") and are seam free in the crotch area. Underwear is not worn with cycling shorts either because, you guessed it, underwear also contains seams.

COMPONENTS SADDLES

MIRAGE

SADDLE

vacuumed - seamless technology for higher comfort
double density base - kraton rubber for reducing pressure
softrail - flexible connection of rails and shell for better absorbing shocks
zone cut - pressure free zone in sensitive area
high density foam, scale for precise adjustment
size: 275 x 184mm

COLORS: black, white

zone cut - pressure free zone in sensitive area
rear and front protection - for higher durability
high density foam, scale for precise adjustment
size: 270 x 153mm

COLORS: blue, green, red, white

COMPONENTS GRIPS & BAR ENDS

Handlebar grips, often overlooked, are an exceedingly important addition to your bicycle.

A high quality pair of grips ensure an excellent control and comfort therefore it is important to choose them carefully. Kellys offers various options according to your demands: grips with LockOn holders that allow for addition of Steron bar ends or extending your grip options using simple, but comfortable Exbone handles.

LOCK-ON GEL

GRIPS

kraton rubber with gel insert to absorb vibrations provides an excellent grip and optimal control in all conditions

COMPONENTS BOTTLES & BOTTLE CAGES

Up to 75% of our energy spent is transferred into body heat which leads to increased loss of fluids during a physical exercise.

To prevent our bodies from overheating the body temperature is regulated with sweating. A regular fluid intake will prevent dehydration and having a water bottle with bottle cage on your bike is the best way to stay hydrated. Kellys offers a wide range of bottle cages from the simplest Ratio to the ultra-light Podium model and also a wide offer of bottles of various volumes made from both PE and PP.

KLS GOBI

WATER BOTTLE 0,5L

original KLS design, push pull cap with rubber mouthpiece, made of high quality polyethylene, suitable for water, isotonic drinks and other sport drinks without CO₂ up to 40°C, weight: 76g

COLORS: black-turquoise, white-lime, transparent grey-grey, red-white

KLS GOBI RAW

WATER BOTTLE 0,5L

original KLS design, push pull cap with rubber mouthpiece, made of high quality polyethylene, suitable for water, isotonic drinks and other sport drinks without CO₂ up to 40°C, weight: 76g

COLORS: sky-yellow, red-white, white-black, lime-sky

KLS TUNDRA

THERMAL BOTTLE 0,5L

original KLS design, double wall with airspace and alu foil, push pull cap with rubber mouthpiece, made of high quality polyethylene, suitable for water, isotonic drinks and other sport drinks without CO₂ up to 60°C, weight: 131 g

COLORS: white-red, black-grey, silver-yellow, white-lime

KELLYS KALAHARI

WATER BOTTLE 0,7L

original Kellys design, wide bottle-neck for easy cleaning and filling, soft lockable mouthpiece made of soft plastic BergaFlex™, made of high quality polyethylene, suitable for water, isotonic drinks and other sport drinks without CO₂ up to 40°C, weight: 117g

COLORS: semi-transparent anthracite-red, semi-transparent white-grey

KELLYS KAROO

WATER BOTTLE 0,7L

original Kellys design, push pull cap with rubber mouthpiece, made of high quality polyethylene, suitable for water, isotonic drinks and other sport drinks without CO₂ up to 40°C, weight: 87g

COLORS: black-red, silver-yellow, transparent-red, silver-turquoise

KELLYS SPORT

WATER BOTTLE 0,7L

ergonomic shape and original design, wide bottle-neck for easy cleaning and filling, soft lockable mouthpiece from soft plastic BergaFlex™, made of high quality and proper hygienic, materials polypropylene Borealis / Mosten, weight 75g

COLORS: silver, semi-transparent white, red, semi-transparent anthracite

KLS PODIUM

BOTTLE CAGE

elastic tensioner for a secure bottle hold
material aluminum alloy 5052
including 2 stainless steel bolts
weight 26g

COLORS: black, white, silver

KLS SQUAD

BOTTLE CAGE

material plate aluminum alloy 6061-T5
press-molding
including 2 stainless steel bolts
weight 47g

COLORS: race, lime, blue, sky, green, white

BOTTLE CAGE

one piece polycarbonate material
including 2 stainless steel bolts
weight 33g

COLORS: red, blue, white, black, turquoise

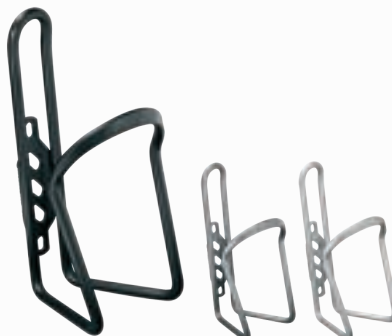

KLS OZZ

BOTTLE CAGE

material aluminum alloy 6463-T5
ABS polyethylene sliders - for comfortable
insertion of a bottle and its protection
including 2 stainless steel bolts
weight 56g

COLORS: black, silver

KLS RATIO

BOTTLE CAGE

material aluminum alloy 6463-T5
including 2 stainless steel bolts
weight 59g

COLORS: black, grey, silver

COMPONENTS TOOLS

KLS ADROIT

FOLDING TOOL

compact minitool with chain tool
hardened chromevanadium steel (Cr-V) keys
19-functions, includes:

chain tool with chain hook	tire levers	2mm hex	2.5mm hex	3mm hex
4mm hex	5mm hex	6mm hex	8mm hex	box wrench 8mm
box wrench 9mm	box wrench 10mm	Torx 25		
philips head screwdriver	flat head screwdriver	spoke wrench 3.2 / 3.3 / 3.5mm		

Even the best bicycle needs some servicing from time to time. The Kellys assortment offers a range of necessary tools for simple and easy repairs. Superior allen keys Hexcode from hardened Cr-V steel, chain riveter Spike, or tyre levers with spoke hooks. The folding multi-tool is an indispensable companion to your rides. It takes minimum space in your saddle bag, pocket, or rucksack and can help you with fixing a broken chain, tightening loose components or adjusting a derailleur. It will find plenty of use even in household service. Kellys offers a wide range of folding multi-tools - from the simplest type Simpler to the Adroid model with tyre levers. All tools are made of high-quality hardened Cr-V steel.

KLS SCOUT

FOLDING TOOL

compact, lightweight (144g) minitool with chain tool
hardened chromevanadium steel (CR-V) keys
11 functions, includes:

2mm hex	2.5mm hex	3mm hex	4mm hex	5mm hex	6mm hex
T25 torx	philips head screwdriver	spoke wrench 3.25 / 3.4mm			
flat head screwdriver	chain tool				

KLS SIMPLER

FOLDING TOOL

compact, small minitool, hardened chromevanadium steel (CR-V) hex keys
8 functions, includes:

2mm hex	2.5mm hex	3mm hex	4mm hex	5mm hex	6mm hex
philips head screwdriver	flat head screwdriver				

KLS CHAINEY

FOLDING TOOL

compact minitool with chain tool, hardened chromevanadium, steel (CR-V) hex keys
11 functions, includes:

2mm hex	2.5mm hex	3mm hex	4mm hex	5mm hex	6mm hex
8mm hex	T25 torx	philips head screwdriver	flat head screwdriver		
chain tool					

KLS SPIKE

CHAIN TOOL

2-density ergonomic handle
chain hook, replaceable pin
for IG / HG / UG chains

KLS JACK

TIRE LEVERS

3 piece set of plastic levers
large handle provides high leverage,
spoke hook

KLS HEXCODE

ALLENKEYS

hardened chromevanadium steel (Cr-V) keys
with ball ends for up to a 30° angle of rotation
10-hex keys, includes:

1.5mm hex	2mm hex	2.5mm hex	3mm hex	4mm hex	5mm hex
6mm hex	8mm hex	10mm hex			

COMPONENTS BRAKE ACCESSORIES

High-quality and reliable brakes are an indispensable part of your bicycle. We offer spare V-brake pads and disc brake pads suitable for all uses. There are three different V-brake pads in our portfolio - from the basic POWERSTOP, effective DUALSTOP, to the top model CONTROLSTOP.

DUALSTOP and CONTROLSTOP V-brake pads significantly improve the brake performance of V-brakes. Hydraulic disc brakes offer a better performance in mud, snow and require less strength. However, if you use V-brake on your bicycle and want to considerably improve the braking performance DUALSTOP / CONTROLSTOP brake pads are an excellent choice.

RESIN DISC BRAKE PADS

Resin disc brake pads are made of different materials joined with resin. For a better performance in various conditions and longer lasting durability we added a ceramic composite and Kevlar. These pads are suitable for riders with lower weight and riding style without frequent braking. They enable more sensitive delivery of the braking power and are much quieter compared to metallic pads.

SINTERED (METALLIC) DISC BRAKE PADS

Made from hardened metal components joined with pressure and heat - these are suitable for longer rides, intense braking and heavy-duty use (mud, moisture, dust). Sintered brake pads offer a superior performance thanks to the transfer of heat away from the disc and into the caliper.

KLS CONTROLSTOP V-01

CARTRIDGE

PSC - power/safe/control technology - shorter braking distance
all-weather compound
- dry conditions (red compound)
- wet conditions (grey compound)

COMPONENTS LIGHTS

Many of us experienced a situation when due to the change of plan, unforeseen delay, flat tyre, or just because you lost the track of time your tour on the bike ends in late evening or even late night.

If you don't have a light you are putting yourself in a dangerous situation. Do not take this risk - when buying your next Kellys bicycle don't forget to add a high-quality front light. From strobe lights suitable for well lit urban streets to the powerful lights made for night traffic or dark forest rides - everyone can find just what they need. It's important to see and be seen. Give others the opportunity to see you and equip your bicycle with suitable safety lights from the wide range of Kellys.

CROOKER
LED HEAD LIGHT

5 red LEDs superbright
2 modes: steady / flashing
quick release TOOL FREE bracket
AAA batteries 2x1.5V included
COLORS: silver, black

KLS STRIKE SET

LED HEAD LIGHT

1 Watt LED ultrabright
2 modes: steady / flashing
quick release TOOLFREE bracket
suitable for handlebar \varnothing 25,4-31,8mm
AAA batteries 3x1.5V included

SAFETY TAIL LIGHT

4 red LEDs superbright
2 modes: steady / flashing
quick release bracket
2xCR2030 battery included

KLS FOCUS SET

LED HEAD LIGHT

4 white LEDs superbright
2 modes: steady / flashing
quick release TOOLFREE bracket
suitable for handlebar \varnothing 25,4-31,8mm
AAA batteries 4x1.5V included

SAFETY TAIL LIGHT

1 LED 0.5W - OPTICAL LENS system/
2 LEDs superbright
2 modes: steady / flashing
quick release TOOLFREE bracket
AAA batteries 2x1.5V included

KLS RHL-07

SAFETY TAIL LIGHT

5 red LEDs superbright
4 modes: steady / flashing / random / running
quick release TOOLFREE bracket
AAA batteries 2x1.5V (sold separately)

KLS RHL-08R

SAFETY TAIL LIGHT

4 red LEDs superbright
OPTICAL LENS system - for maximum power
2 modes: steady / flashing
quick release TOOLFREE bracket
AAA batteries 3x1.5V (sold separately)

KLS RHL-02

SAFETY TAIL LIGHT

5 red LEDs superbright
4 modes: steady / flashing / random / running
quick release TOOL FREE bracket
AAA batteries 2x1.5V (sold separately)

KLS-305

SAFETY TAIL LIGHT

5 red LEDs superbright,
2 modes: steady / flashing
low battery indicator, quick release bracket
AAA batteries 2x1.5V included

KLS-301

SAFETY TAIL LIGHT

5 red LEDs
3 modes: steady / flashing / random
quick release TOOL FREE bracket
AAA batteries 2x1.5V included

PULSAR WHITE

LED HEAD LIGHT

1 white LED superbright
2 modes: steady / flashing
fastening with flexible strap

PULSAR RED

SAFETY TAIL LIGHT

1 red LED superbright
2 modes: steady / flashing
fastening with flexible strap

COMPONENTS CYCLING COMPUTERS

Do you enjoy cycling? Has it become a hobby to the point, that you have a goal to ride a certain amount of kilometers per season? Do you want to hit a speed limit or ride a certain distance when on holiday with the kids?

This is not possible without an accurate count of passed kilometers and measure of your current speed. You will find the solution in the offer of Kellys cycling computers which includes simpler wired and wireless versions, as well as more advanced models currently represented by the Counter model available in three colour versions.

KLS COUNTER

CYCLE COMPUTER

14 functions: clock 12/24 Hour, current speed, average speed, maximum speed (MXS), speed comparison (+ / -), 2 wheels size adjustment, trip time, trip distance, total distance (ODO 1 and ODO 2), total odometer, calorie consumption, backlight, temperature, automatic Start / Stop, big space LCD display offers easy read-out, including mounting bracket for handlebar or stem

COLORS: silver, black, white

KLS KCC-16 WL

WIRELESS CYCLE COMPUTER

16 functions:

- speedometer / tripmeter (DST)
- odometer (ODO) / auto trip timer (TM)
- maximum speed (MXS) / digital clock
- 12/24 hour selectable / average speed (AVS)
- scan (of functions DST, MXS, AVS, TM)
- freeze frame memory / speed comparator (+ / -)
- speed tendency (acceleration or deceleration)
- odometer save function / maintenance program
- temperature (-10°C to + 50°C)
- °C / F selection

double space LCD display offers easy read-out
click release system, single-piece sensor
including mounting bracket for handlebar

KLS KCC-13

CYCLE COMPUTER

13 functions:

- speedometer / tripmeter (DST)
- odometer (ODO) / auto trip timer (TM)
- maximum speed (MXS) / digital clock
- 12/24 hour selectable / average speed (AVS)
- scan (of functions DST, MXS, AVS, TM)
- freeze frame memory / speed comparator (+ / -)
- speed tendency (acceleration or deceleration)
- odometer save function
- auto start/stop function

double space LCD display offers easy read-out
click release system, single-piece sensor
including mounting bracket for handlebar

KLS KCC-09

CYCLE COMPUTER

9 functions:

- speedometer / tripmeter (DST)
- odometer (ODO) / auto trip timer (TM)
- maximum speed (MXS) / digital clock
- average speed (AVS)
- scan (of functions DST, MXS, AVS, TM)
- speed comparator (+ / -)
- auto start/stop function

double space LCD display offers easy read-out
click release system, single-piece sensor
including mounting bracket for handlebar

COMPONENTS MUDGUARDS

KLS THUNDER

MUDGUARD

front and rear mudguard
rear mudguard holder with two joints and an adjustable angle
simple and quick mounting

Mudguards increase the comfort of ride on wet or muddy terrain but can be easily and quickly removed during a nice and dry weather.

Removal of some models is tool free. These mudguards are equipped with SQR system (quick release system for all types of seat posts) and Turner system (two stage quick release system). These systems can be found in our top series of mudguards intended for MTB.

KLS KNIGHT

MUDGUARD

front and rear mudguard
front mudguard with Turner system - Two position quick release system
rear mudguard with SQR System - Smart Quick Release System.
QR system for all seatposts diameters
rear mudguard holder with two joints and an adjustable angle

KLS FUSE

MUDGUARD

front and rear mudguard
including two clamp diameters
for all frame types
adjustable rear mudguard holder

KLS SHIELD F

MUDGUARD

front mudguard
suitable for all types of frame tubes
fixation by flexible mounting straps
simple mounting on the downtube

KLS SHIELD R

MUDGUARD

rear mudguard
rear mudguard with SQR System - Smart Quick Release System.
QR system for all seatposts diameters
mudguard holder with an adjustable angle

COMPONENTS PUMPS

A properly inflated tube is the basis of every cycling trip. Therefore a pump should be an indispensable part of the equipment, whether you take it with you on the road or it stays in the workshop.

Kellys offers a solution for both cases in the form of mini pumps or service pumps. You can rely on mini pumps to reach the pressure of 70 psi, some even 130 psi. They can be mounted on the frame tube or under the bottle cage. Service pumps are able to reach up to 150 psi. All our pumps are equipped with reversible head system or universal system for FV / AV valves.

BLOWGUN

FLOOR PUMP

extra long two-stage steel floor pump
 patented dual piston with two-stage mechanism (high pressure/big volume)
 dual head for AV (Schrader) / FV (Presta) valve
 antislip ergonomic handle for better grip
 with extra set for ball inserted in the handle
 big pressure gauge (Bar / PSI)
 stable steel base

BLOWMASTER PRO

FLOOR PUMP

light weight floor pump with anodized alloy body
 reversible Schrader / Presta head system
 with extra Velo valve adapter
 - universal for each valves types
 with 2" high pressure gauge (bar/psi)

BLOWHORN PRO

FLOOR PUMP

light weight plastic floor pump with wide foot base for sure footing
 ergonomically shaped handle for single hand and dual hand pumping
 with 2" high pressure gauge (bar/psi)

MAGNUM

FLOOR PUMP

strong alloy floor pump
 with 2" high pressure gauge (bar/psi)
 dual head for Schrader / Presta valve
 ergonomic handle with rubber grip zones
 super tough base with steel plate
 anodized alloy body in titanium color

CLASSIC

MINIPUMP

combination of minipump with performance of classic floor pump
made of aluminium alloy
hose ergonomically nested in oval alloy barrel
reversible head for Schrader / Presta valve
foldable T-handle
integrated metal pedestal, including frame bracket
weight 209g

DOUBLY

MINIPUMP

made of aluminium alloy
dual head for Schrader / Presta valve
thumblock lever
ergonomic T-handle
including frame bracket
weight 146g

DOUBLY ECO

TELESCOPIC MINIPUMP

made of plastic
dual head for Schrader / Presta valve
with thumblock lever
ergonomic T-handle
high pressure / big volume locking system
including bracket
weight: 111 g

SMART TELESCOPE

MINIPUMP

anodized alloy body
telescope - more air per stroke
thumblock lever
reversible Schrader / Presta head system
including bracket
weight 112g

KP-202

MINIPUMP

compact lightweight plastic body
space in the handle for repair set or tools
reversible Schrader / Presta head system
including bracket
weight 58g

NITRO

MINIPUMP

compact light and small plastic minipump
length only 180mm
lockable handle with rubber grip zones
alloy inner barrel thumblock lever
reversible Schrader / Presta head system
including bracket
weight 95g

KP-204 TELESCOPE

MINIPUMP

compact lightweight plastic body
telescope - more air per stroke
space in the handle for repair set or tools
thumblock lever
reversible Schrader / Presta head system
including bracket
weight 91g

KLS GUST

MINIPUMP

combination of aluminium alloy barrel and plastic handle
retractable 13cm hose with Schrader valve
brass Presta adapter included
thread on valve engagement
weight: 87 g

KP-203

HIGH-PRESSURE PUMP

for most types of air forks and rear shocks
anodized alloy body with high pressure gauge (bar/psi)
micro adjust air control button
ergonomic handle for better grip
patented flexible hose connection

COMPONENTS LOCKS

For the protection of your bicycles Kellys prepares a wide range of spiral locks of various sizes and lengths.

Combination locks with adjustable code are traditionally part of our offer. Latest addition to our lock range is a solid steel U-lock KLS Alert.

KLS ALERT

STEEL LOCK

U-Lock made of hardened steel
simple locking mechanism
PVC cover to protect the frame
DIMENSIONS: 130x205mm

KLS JOLLY

CABLE LOCK COVERED BY SOFT RUBBER

inner braided wire \varnothing 4,5 mm
outer diameter \varnothing 12 mm
LENGTH: 650 mm
COLORS: black, sky, lime, red

KLS CORD

CABLE LOCK WITH STEEL LOCK HEAD

inner braided wire \varnothing 3,8 mm
outer diameter \varnothing 8 mm
LENGTH: 800 mm
COLOR: smoke black

KL-071

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 4.5mm
outer diameter of lock-body \varnothing 10mm
2 keys - one in normal version - the second one with a luminous LED diode
dust protector, including bracket
LENGTHS: 650mm, 1200mm, 1500mm

KL-072

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 5.6mm
outer diameter of lock-body \varnothing 12mm
2 keys - one in normal version - the second one with a luminous LED diode
dust protector, including bracket
LENGTHS: 800mm, 1200mm, 1500mm

KL-073

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 7mm
outer diameter of lock-body \varnothing 15mm
2 keys - one in normal version - the second one with a luminous LED diode
dust protector, including bracket
LENGTHS: 800mm, 1200mm, 1500mm

KL-051

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 4.5mm
outer diameter of lock-body \varnothing 10mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 650mm, 1200mm, 1500mm, 1800mm

KL-052

SPIRAL CABLE LOCK WITH BRACKET

diameter of braided steel wire \varnothing 5.6mm
outer diameter of lock-body \varnothing 12mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTH: 1200mm

KL-052

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 5.6mm
outer diameter of lock-body \varnothing 12mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 800mm, 1200mm, 1500mm

KL-053

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 7mm
outer diameter of lock-body \varnothing 15mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 800mm, 1200mm, 1500mm

KL-001

COMBINATION SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 3,8mm
outer diameter of lock-body \varnothing 8mm
LENGTH: 1000mm

KL-002

COMBINATION SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 5,6mm
outer diameter of lock-body \varnothing 12mm
re-settable PIN code, with the seatpost bracket
LENGTH: 1000mm

K-1026S

SPIRAL CABLE LOCK

outer diameter of lock-body Ø8mm
2 keys, including bracket
LENGTH: 1000mm
COLORS: black, red, blue

K-825S

SPIRAL CABLE LOCK

outer diameter of lock-body Ø6mm
2 keys, including bracket
LENGTH: 800mm

K-3215S

SPIRAL CABLE LOCK

outer diameter of lock-body Ø12mm, 2 keys
LENGTH: 1500mm

K-3212S

SPIRAL CABLE LOCK

outer diameter of lock-body Ø12mm, 2 keys
LENGTH: 1200mm

K-3218S

SPIRAL CABLE LOCK

outer diameter of lock-body Ø12mm, 2 keys
LENGTH: 1800mm

KLS MASTER

PEDALS

aluminium pedal for MTB/CROSS/TREKKING
body: aluminium
axle: Cr-Mo steel
bearings: ball bearings
size: 101x63 mm
weight: 262g

KLS TRAIL

PEDALS

aluminium pedal for CROSS/TREKKING/CITY
body: aluminium with non-slip rubber surface
axle: boron steel
bearings: ball bearings
size: 108x84,5 mm
weight: 390g

KLS PORT

PEDALS

plastic pedal for MTB/CROSS/TREKKING
body: plastic with non-slip rubber surface
axle: boron steel
bearings: ball bearings
size: 112x77 mm
weight: 323g

KLS FLAT

PEDALS

plastic pedal for MTB/CROSS/TREKKING
body: plastic
axle: boron steel
bearings: ball bearings
size: 112x77 mm
weight: 323g

KLS CLIP

PEDALS

plastic pedal for MTB/CROSS/TREKKING
with Clip-in system
SPD compatible cleats are included
body: aluminium, one side with non-slip rubber
surface, other side with Clip-in system
axle: Cr-Mo steel
bearings: ball bearings
size: 103x63 mm

KLS URBAN

PEDALS

plastic pedal for CROSS/TREKKING/CITY
body: plastic with non-slip rubber surface
axle: boron steel
bearings: ball bearings
size: 106x84,5 mm
weight: 320g

KLS DIGGER

PEDALS

BMX/MTB Aluminum pedals
body: Aluminum alloy
axle: Cr-Mo alloy
bearings: ball bearings
size: 110x110 mm
weight: 570 g

KLS DRIFTER

PEDALS

BMX/MTB Nylon composite pedals
body: nylon composite
axle: boron steel
bearings: ball bearings
size: 100x96 mm
weight: 366 g
COLORS: black, purple, light blue

WHEELS

CROSS 1 F

rim: KLS Event, single wall - 36 h
size: 622x19, hub: nut type, silver alloy, U.C.P. steel spokes

CROSS 1 R

rim: KLS Event, single wall - 36 h
size: 622x19, hub: 7-speed, nut type, silver alloy, U.C.P. steel spokes

CROSS 2 F

rim: KLS Draft, double wall - 32 h
size: 622x19, hub: silver alloy with QR system, U.C.P. steel spokes

CROSS 2 R

rim: KLS Draft, double wall - 32 h
size: 622x19, hub: SHIMANO FH-RM30, 8-speed with QR system, U.C.P. steel spokes

MTB 1 F

rim: KLS Event, single wall - 36 h
size: 559x19, hub: nut type, silver alloy, U.C.P. steel spokes

MTB 1 R

rim: KLS Event, single wall - 36 h
size: 559x19, hub: 7-speed, nut type, silver alloy, U.C.P. steel spokes

MTB 2 F

rim: KLS Event, single wall - 36 h
size: 559x19, hub: 7-speed with QR-System, silver alloy, U.C.P. steel spokes

MTB 2 R

rim: KLS Event, single wall - 36 h
size: 559x19, hub: 7-speed with QR-System, silver alloy, U.C.P. steel spokes

MTB 3 F

rim: KLS Draft, double wall - 32 h
size: 559x19, hub: silver alloy with QR-system, U.C.P. steel spokes

MTB 3 R

rim: KLS Draft, double wall - 32 holes
size: 559x19, hub: SHIMANO FH-RM30, 8-speed with QR system, U.C.P. steel spokes

TUBE REPAIR KIT

show box consist of 50 plastic boxes

plastic box consist of:

5ml of glue, 2pcs of 20mm round patches, 4pcs of 25mm round patches,
2pcs of 24x35mm square patches, 1pc of metal rasp, 1pc of chalk,
instruction manual

KBIX INNER TUBES

high quality butyl inner tubes
air pressure long-term stability
excellent resistance against puncture

AVAILABLE SIZES:

47/57 - 559/584 (26 X 1.9 / 2.125) AV 35MM
47/57 - 559/584 (26 X 1.9 / 2.125) AV 48MM
47/57 - 559/584 (26 X 1.9 / 2.125) FV 32MM
47/57 - 559/584 (26 X 1.9 / 2.125) FV 48MM
47/57 - 559/584 (26 X 1.9 / 2.125) DV 26.5MM
35/44 - 622/630 (700 X 35 / 43C) AV 35MM
35/44 - 622/630 (700 X 35 / 43C) AV 48MM
35/44 - 622/630 (700 X 35 / 43C) FV 32MM
35/44 - 622/630 (700 X 35 / 43C) FV 48MM
35/44 - 622/630 (700 X 35 / 43C) DV 26.5MM
18/23 - 622/630 (700 X 18 / 23C) FV 32MM
18/23 - 622/630 (700 X 18 / 23C) FV 48MM
