EVERY BIKE
HAS A MISSION

INTRO

MADE BY BIKERS FOR BIKERS. ALL KELLYS AND KLS ACCESSORIES AND CLOTHING ARE DESIGNED BY PEOPLE WHO RIDE THEIR LIVES AND KNOWS THE BIKERS' NEEDS AND DEMANDS. USING THEIR SKILLS, TALENT AND PASSION, THEY CREATE HIGH-QUALITY PRODUCTS TO BRING JOY TO EVERY RIDE, TO MAKE IT SAFER, MORE SATISFYING AND STYLISH. IT DOES NOT MATTER IF YOU ARE A PRO OR AMATEUR, IF YOU SHRED MOUNTAIN TRAILS, RUSH ON THE TARMAC OR JUST CRUISE AROUND THE CITY - YOU ALWAYS DESERVE THE BEST RIDING EXPERIENCE, AND OUR MISSION IS TO MAKE IT POSSIBLE.

SERVICE & CARE

RESEARCH & DEVELOPMENT

DEPARTMENT_

_CREATING A QUALITY CYCLING PRODUCT IS NOT AN EASY TASK SINCE YOU TAKE IT SERIOUSLY AS WE DO. HOURS OF DESIGNING, MANY PROTOTYPES, KILOMETRES OF TESTING - IT'S JUST A BEGINNING OF THE PATH LEADING TO THE FINAL PRODUCT WHICH CAN SATISFY THE HIGHEST DEMANDS OF MODERN BIKERS...

KLS Asia Angels

The way of cycling is changing as so the riders' demands along with technologies available. To stay on the top, you need to keep up the pace of the cycling world. There is no better way to achieve it than being a part of this fast-changing environment. Kellys R&D team is a group of people who are not only ingenious engineers and inventors but also active riders knowing the bikers' needs and demands the best. We believe that this is the only way to add something special to every ride, something which cannot be measured, tested or described. This is something which every biker can feel only when using Kellys products.

ABOUT

That is the reason why we are proud of all Kellys bicycle accessories and parts, cycling clothes and gear, carrying the unique particle of Kellys' Every Bike Has a Mission philosophy.

RIVAL

WINDPROOF JACKET

Kellys Rival jacket will be your top choice to compete against the wind and the rainy weather. Bright color of the membrane jacket fabric will make you visible on the road even from the distance. This jacket is made of the ITTAI® windproof and water repellent material with excellent breathability. On the top of this the jacket has back opening which keeps you ventilated during the ride. Thanks to the 3 back pockets you will have room to bring all belongings you need with you and you'll stay visible even in the dark with the reflective printing.

SIZES: S, M, L, XL, XXL

PRO SPORT WIND JACKET

PRO SPORT WIND jacket is made from combination of wind blocker membrane and breathable fabrics. This combination offers you wind protection with optimal breathability. The jacket has full length zipper which allows you to control your body temperature easily and high collar which keeps the wind and moisture off the neck. Jacket is made in simpler look for more leisure rides and it's added by the reflective printing for better visibility during the rides in the dark.

SIZES: S, M, L, XL, XXL

WIND PACK JACKET

Ultralight and windproof jacket made of micropolyamid fibres with rip-stop treatment [against tearing]. You can stuff this jacket into its own pocket to put into your back pack or even into your jersey back pocket. So the jacket is always available when the weather turns nasty or for a chilly downhill. There is plenty ventilation thanks to mesh on the back and in the arm pits for higher breathability. With reflective Kellys logo for your safety.

FRAME

All types of sun glasses are made of Grilamid TR90, which is characterized by an extremely high flexural strength, flexibility and lightweight. Grilamid TR90 also excellently resists weather conditions and the effects of UV radiation. This material therefore ensures a long frame durability even during high performance.

ANTI-SCRATCH COATING

All lenses are equipped with special surface treatment which increases scratch resistance.

ANTI-FOG COATING

This lens treatment prevents fogging for certain time to avoid reduced visibility.

ANTI-WATER COATING

Surface treatment improves off-take of water droplets. It helps to keep the vision clear and without any distortion.

POLYCARBONATE LENSES

These lenses are characterized by lightweight and depending on the finish also by high durability and scratch-resistance.

PHOTOCHROMIC LENSES

Photochromic lenses are made of Polycarbonate. Depending on the intensity of UV radiation the lenses will be darker. If the UV radiation is removed [indoors or inside the car], the lenses will return to their clear state. These lenses are recommended to use outdoor only.

POLARIZED LENSES

The sun light itself is not polarized – it becomes polarized after the impact on a shiny surface [snow, water surface or road], when the reflected waves oscillate in two levels – horizontal and vertical. Sunglasses with polarized filter allow only the positive vertically reflected rays to reach your eye. Looking through such sunglasses is comfortable, clear and without glare. The horizontal group of sun rays is blocked out by the polarized filter. These lenses allow a colorful vision, better visual clarity and notable relief for the eyes.

FILTER CATEGORY	TINT	USE	LIGHT TRANSMITTANCE	
			From %	To %
0	Clear / Very Light	Cloudy, Evening	80	100

BICYCLE

OPTICS MATTERS

It's not all about the lumens

IF YOU HAVE A HI-POWER LIGHT WHICH SENDS ALL THE LIGHT INTO ONE SMALL POINT IN THE DISTANCE – YOU WON'T SEE MUCH WITH YOUR 1 000 LUMEN LIGHT. LENS AND REFLECTOR NEEDS TO DIRECT A STRONG BEAM OF LIGHT INTO THE DISTANCE, WHILE A WIDE-ANGLE OF “DIMMER” LIGHT IS DISTRIBUTED EVENLY AT YOUR SURROUNDINGS.

Light which sends all the light into one distant point

Good light which disturbs light evenly at surroundings

SET UP YOUR LIGHT IN SUCH WAY THAT YOU
DON'T BLIND OTHERS AROUND YOU

CORRECT POSITION OF LIGHT ON HANDLEBARS
IS THE CLOSEST TO THEIR CENTER

ZOOMER HEADLIGHT

Zoom lens: 16-60°

Source of light: 1x XM-L T6 LED [USB] / 1x Cree LED [AAA]

Functions: 100%, 50%, 25%, Flashing

GRIPS

How to choose the right grip shape?

STANDARD

STANDARD SHAPE

Round shape allows free movement of your hand when riding through a rough terrain, and/or changing between sitting and standing riding position. This is why it is commonly used among professional riders.

SEMI-ERGO

SEMI-ERGO SHAPE

This shape brings together the comfort of Ergo-shaped grip, and riding performance of round-shaped grip. This way you can enjoy maximum comfort, and still keep excellent handling performance – anywhere you go.

ERGO

ERGO SHAPE

Provides the biggest support for the palm area which brings the maximum comfort during long touring trips, or when cruising through busy city traffic.

POISON GRIPS

2 alloy lock rings for slip-free performance and easy mounting
Extra soft materials for extra comfort

_TECHNOLOGIES

AL 7050 – Strongest aluminum alloy, commonly used in rock-climbing equipment, hang glider frames, military, automotive and, of course, bicycle industry. Toughest material, but difficult to weld. That's why it is used mostly for Handle Bars only.

AL 6061 – Aluminum alloy commonly used in home build or hobby aircraft, yacht constructions or scuba tanks. Provides very good ratio between strength and affordability.

DOUBLE BUTTED – 2 thicknesses of material are combined to provide best of both – strength and lightweight. Where the material needs to stand against strong pressure, it is thickened to provide extra strength. On points where the material is not handling that much pressure, it is thinned to reduce unnecessary weight.

T6 – process of increasing the material hardness by heating the material to a certain temperature for certain period of time. Times and temperatures may vary based on materials used. This process arranges atoms in molecular structures which greatly increase the strength of material. Also called "Aging Process"

3D FORGING – Solid block of heated aluminum is compressed into desired mould. Advantage of this technology of forging is that no welding needs to be used, so the component is lighter and stronger in the end.

CNC – Computer Numerical Control – is the automation of tools through commands which are entered in digital form. This means better precision and control over the tools. This also allows for more complicated shapes to be made, which otherwise wouldn't be possible by using the die-casting method. In the end the products can be "nicer", lighter [because CNC removes material from places where it is not needed], and which fits very precisely.

AIRTANK

AIRFLOW ONE FLOOR PUMP

Alloy service pump with Airtank
Inflates tubeless ready tires
Switchable Schrader/Presta/Dunlop
Ergonomic handle for comfortable pumping
Stable die-cast base covered by rubber for even better stability
Top mounted gauge

MAXIMUM PRESSURE:
240 psi/18 bar

AIRTANK FLOOR PUMP

Alloy Service pump
Large pressure gauge in base for easy reading
Ergonomic handle
Dual head for Schrader/Presta/Dunlop
HOSE LENGTH: 940mm
HANDLE: 240 x 37mm

MAXIMUM PRESSURE:
160 psi/11 bar

MAGNUM

FLOOR PUMP

Alloy floor pump
Pressure gauge
Dual head for Schrader/Presta/
Dunlop
Ergonomic handle with rubber
grip zones
Stable base

MAXIMUM PRESSURE:

160 psi/11 bar

TWISTER PRO

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/Presta/Dunlop
Wide base for stability
Half-height big round gauge

MAXIMUM PRESSURE:

160 psi/11 bar

TWISTER

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/Presta/Dunlop
Wide base for stability

MAXIMUM PRESSURE:

160 psi/11 bar

COVERT

PUMP

Compact mini floor pump usable also as portable hand pump

1" pop-out precise hideable gauge - sliding out by stepping down metal footpad

18mm alloy telescopic barrels for Big-Volume/Hi-Pressure modes

Pinch-Free T-handle

CNC valve core and cap

Patented auto-switching Twin Head fits schrader/presta with thread for valve engagement

Valve head with plugs against dust

LENGTH: 300mm

WEIGHT: 216g

MAXIMUM PRESSURE: 120psi/8 bar

CLASSIC

TRAVELPUMP

Aluminium alloy pump

Combination of minipump with performance of floor pump

Hose ergonomically nested in oval

Reversible head for Schrader/Presta valve

Foldable T-handle

Integrated metal pedestal,

Including frame bracket

WEIGHT: 209g

MAXIMUM PRESSURE: 120psi/8 bar

OMNI

MINIPUMP

All in one mini pump

Shock/Schrader/Presta/Dunlop

Multi-directional hose

Bleeder for fine tuning pressure

Gauge for Bar/PSI reading

High pressure - Big volume switch

WEIGHT: 218g

LENGTH: 260mm

MAXIMUM PRESSURE: 300 psi

DRIFT

MINIPUMP

Minipump suitable for MTB

Made by CNC technology

Patented auto switching dual head fits

Schrader /Presta

Big barrel

LENGTH: 215mm

MAXIMUM PRESSURE: 80psi/5 bar

DOUBLY PRO 50

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop

Telescopic

Ergonomic T-Lock handle

WEIGHT: 153g

LENGTH: 265mm

MAXIMUM PRESSURE: 100psi/7 bar

DOUBLY PRO 30

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop

Ergonomic T-Lock handle

WEIGHT: 137g

LENGTH: 265mm

MAXIMUM PRESSURE: 80psi/5 bar

DOUBLY PRO 10

ERGONOMIC PLASTIC MINI PUMP

Dual head for Schrader/Presta/Dunlop
Telescopic

Ergonomic T-Lock handle

WEIGHT: 128g

LENGTH: 265mm

MAXIMUM PRESSURE: 100psi/7 bar

New!

KINDLE

ERGONOMIC MINIPUMP

Compact and lightweight mini pump

Plastic body and large ergonomic handle

Universal pump head for all types of valves

Thumb Lock system

Including bracket

WEIGHT: 100 g

LENGTH: 240 mm

MAXIMUM PRESSURE: 80 psi / 5 bar

SHOCKER 70

HIGH-PRESSURE PUMP

Alloy high pressure pump

With pressure gauge

Covered fine tuning pressure bleeding valve

Swivel hose for easy pumping

Ergonomic handle

LENGTH: 260mm

WEIGHT: 190g

MAXIMUM PRESSURE: 300 psi/20 bar

SHOCKER 50

HIGH-PRESSURE PUMP

With pressure gauge

Fine Tuning pressure bleeding valve

2-stage non-leakage valve

Swivel hose for easy pumping

Plastic upper & lower handles

Pinch-Free locked T-handle

LENGTH: 260mm

WEIGHT: 190g

MAXIMUM PRESSURE: 300 psi/20 bar

5mm hex
6mm hex

JACK 10

TIRE LEVERS

3 piece set of plastic levers
Large handle provides high leverage,
spoke hook

MULTIFUNCTIONAL OIL 1

SILICONE OIL 2

CHAIN OIL 3

PREMIUM LUBE 4

ORANGE LINE

LUBRICATION

The ORANGE line includes various lubricants, such as chain oil, universal oil or premium grease. Products from the orange line allow you to take care of every lubrication point of your bike: from chain, through cables to every bearing and axle. High-quality ingredients and modern additives reduce friction and protect the sensitive parts of a bicycle against excessive wear and corrosion.

BLUE LINE

CLEANING

To keep the bicycle clean and shine, and ensure smooth operation of its components, you should reach for the products from the BLUE line. Gentle but very effective cleansing ingredients thoroughly remove impurities, leaving the surface free of dirt, dust and old grease, and prepare the bicycle to put on fresh lubricants.

BIKE CLEANER 5

MULTIDEGREASER 6

DETAILING BRUSH 7

BRUSH / CLAW 8

SOFT BRUSH 9

GREY LINE

CARE

BIKE POLISH 10

Products from the GREY line give finishing touch after cleaning the bike to protect any painted and non-painted surfaces leaving deep shine and prevent dirt and wet from sticking.

CLEANERS & LUBRICANTS

SILICONE OIL

Silicone Oil is suitable for oiling and preservation during repairing and maintaining bicycles, particularly shock absorbing forks (do not confuse with oils for filling shock absorbers), O-rings, rubber seals, cables, Bowden cables, and pins in gears or lever-key switches. It may also be used for general oiling. Spray 200ml

MULTIFUNCTIONAL OIL BIO

Multifunctional Oil BIO is a biodegradable all-purpose fluid suitable for general lubrication, loosening of rusted joints, and prevention of corrosion. Spray 200ml / Applicator 100ml

PREMIUM LUBE WHITE

Bike lube „white“ is a highly effective white grease with content of PTFE (polytetrafluoroethylene) useful for the lubrication of slide and roll bearings, hubs, heads, pedals, etc. The lubricant excels in its high resistance against water and provides a long life for all bearings. Tube 100g

CHAIN OIL

As the name suggests, Chain oil is white lubricant for chains. The lubricant flows easily into the open spaces in the chain, lubricates the chain and protects it against rust. It is also suitable for O-ring chains. It doesn't contain excessive adhesive components and is, therefore, better suited for the lubrication of chains on mountain as well as highway bicycles under all types of conditions, from dust to rain. Spray 200ml / Applicator 50ml

BIKE CLEANER

Bike Cleaner is a maintenance and cleaning agent for cleaning bicycles from mud and other contamination. Higher foaming ability ensures a lower consumption of the agent. Bike Cleaner is applied by spraying on the contaminated spots (derailleurs, pedals, hubs, frame). It is particularly suitable to clean very contaminated parts (chains, sprockets, etc.) where it adheres due to its foaming ability and thus the product consumption is lower. It does not harm paint. Applicator 500ml/1000ml

New!

CLEANING SET

Bucket with everything you need to keep your bike working and looking good all season. Contains: Bucket, 3x brush, sponge, wipe cloth, Chain oil 50ml, Bike cleaner 500ml, Bike polish spray 200ml.

BIKE POLISH

Bike polish is cleaner / degreaser. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads and other metal components. Spray 200ml

MULTI DEGREASER

„Multi“ degreaser is cleaner / degreaser in one. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads, and other metal components. Spray 750ml

New!

HANDCLEANER

Handcleaner is a highly effective cleansing cream that does not contain any solvents or chemicals. Thanks to the abrasive particles it can remove even the biggest dirt from hands, but it is also skin friendly. Handcleaner contains lanolin, which prevents hand skin cracking after washing. Dose 500g

N306PD1

BRAKE LEVERS SET

3-finger left and right brake lever set
Lightweight aluminum lever / plastic body
Adjustable reach
22,2mm Standard clamp diameter
Fits all common handlebars
COLOR: Black+Silver

T210DG4

BRAKE CALIPERS SET

Set of front and rear 125 mm R+L arms
Adjustable screws
Brake shoes 70 mm included
Pipes and mounting bolts M6 included
Made out of Aluminum Alloy
Compatible with all common V-brake levers
COLOR: Black

KLS CONTROLSTOP V-01

KELLYS BICYCLES IS OFFICIAL KMC DISTRIBUTOR

Foundation of KMC began in 1977 in Taiwan. Since then, KMC has been concentrating on chain design and production for nearly 40 years. KMC sales reach all over the world.

KMC is the world leader in chain manufacturing. Based on its bicycle chain manufacturing technologies, KMC also produces a variety of other chain products, like automobile timing chains, motorcycle chains, and industrial chains.

KMC invests a lot in their R&D. KMC has broken their past achievement records: the first chain manufacturer to release a Super Lightweight chain, to offer Color chain (including Titanium-Nitride coated chain and Patriot chain), to use Diamond-Like Coating [DLC] reduced-friction technology on the chain, and to achieve the chain industry's first Carbon Footprint assessment certificate to show its commitment to eco-friendly manufacturing.

BOTTOM BRACKET CARTRIDGE

Sealed ball bearings
Phosphate coated cold-forged steel cups
Aluminum body
Spindle screws included (pair)
Thread BSA: BC1.37"x24T R/L 68mm
Compatible with Shimano tools
Spindle Lengths: 110, 113, 115, 117.5, 119, 122.5, 124.5, 127.5mm

ITS-40 INTEGRATED HEADSET

Integrated tapered headset 1 1/8 - 1 1/2"
Diameter 28,6 / 41,8 / 52,0 / 30 - 39,8 mm
Sealed bearings 45°x 45°
Including 2 race crowns 1 1/8" + 1 1/2"
Stack height 10.5+0.7=11.2 mm
Star nut and top cap with screw included
Made of aluminum
COLOR: Black

SHS-30 SEMI-INTEGRATED HEADSET

Semi-integrated headset 1 1/8"
Diameter 28,6 / 44,0 / 30,0 mm
Ball bearing 5/32"x20
Stack height 22 mm
Star nut and top cap with screw included
Made of steel
COLOR: Black

AHS-20 A-HEAD HEADSET

Thread-less headset 1 1/8" [Ahead]
Diameter 28,6 / 34,0 / 30,0 mm
Ball bearing 5/32"x20
Stack height 22,7 mm
Star nut and top cap with screw included
Made of steel
COLOR: Black

New!

KRANK

CHAINWHEEL

28/38/48 tooth
3x7/8-speed
Length: 170mm
Recommended axle size: 124,5mm
For square tapered BB axles
Aluminum crank arms
Steel chainrings
Plastic chainguard included
COLOR: Black

CASUAL/BIKE WEAR

HEIGHT:

Measure from the top of the head to the floor while standing upright.

CHEST:

Measure around your chest, with arms relaxed down at sides. Measure around the fullest part of your chest, make sure the measuring tape will go around your shoulder blades. Keep the tape parallel to the floor.

WAIST:

Measure around natural waistline, keeping the tape a bit loose.

HIPS:

Measure with your feet together, keep tape straight and measure around the widest part of your hips.

INSEAM:

Measure inside of leg from the crotch to the ankle bone.
